3. Dashboard

/dashboard · 1 screenshot

PURPOSE

Dashboard screen for Seyora One — scoped by company and branch where applicable.

USER FLOW

1. User opens ****/dashboard**** from the sidebar.
2. Page loads data for the selected company/branch scope.
3. User performs the primary workflow on this screen.
4. Changes persist via the cloud API and refresh the list or detail view.

FEATURES

- Tabs / section rails switch in-page views when a page has more than one.
- Drawers and dialogs handle detail, create, edit, and delete flows.
- Role and plan entitlements control what this user can change.

SCREENS

4. Attendance calendar

/attendance/calendar · 1 screenshot

PURPOSE

Attendance calendar screen for Seyora One — scoped by company and branch where applicable.

USER FLOW

1. User opens ****/attendance/calendar**** from the sidebar.
2. Page loads data for the selected company/branch scope.
3. User performs the primary workflow on this screen.
4. Changes persist via the cloud API and refresh the list or detail view.

FEATURES

- Tabs / section rails switch in-page views when a page has more than one.
- Drawers and dialogs handle detail, create, edit, and delete flows.
- Role and plan entitlements control what this user can change.

SCREENS

5. My attendance summary

/attendance/my-summary · 1 screenshot

PURPOSE

My attendance summary screen for Seyora One — scoped by company and branch where applicable.

USER FLOW

- 1. User opens `**/attendance/my-summary**` from the sidebar.
- 2. Page loads data for the selected company/branch scope.
- 3. User performs the primary workflow on this screen.
- 4. Changes persist via the cloud API and refresh the list or detail view.

FEATURES

- Tabs / section rails switch in-page views when a page has more than one.
- Drawers and dialogs handle detail, create, edit, and delete flows.
- Role and plan entitlements control what this user can change.

37. Timesheet approval

/tasks-timesheets/approvals · 1 screenshot

PURPOSE

Timesheet approval screen for Seyora One — scoped by company and branch where applicable.

USER FLOW

1. User opens ****/tasks-timesheets/approvals**** from the sidebar.
2. Page loads data for the selected company/branch scope.
3. User performs the primary workflow on this screen.
4. Changes persist via the cloud API and refresh the list or detail view.

FEATURES

- Tabs / section rails switch in-page views when a page has more than one.
- Drawers and dialogs handle detail, create, edit, and delete flows.
- Role and plan entitlements control what this user can change.

SCREENS

38. Hours reconciliation

/tasks-timesheets/hours-reconciliation · 1 screenshot

PURPOSE

Hours reconciliation screen for Seyora One — scoped by company and branch where applicable.

USER FLOW

- 1. User opens ****/tasks-timesheets/hours-reconciliation**** from the sidebar.
- 2. Page loads data for the selected company/branch scope.
- 3. User performs the primary workflow on this screen.
- 4. Changes persist via the cloud API and refresh the list or detail view.

FEATURES

- Tabs / section rails switch in-page views when a page has more than one.
- Drawers and dialogs handle detail, create, edit, and delete flows.
- Role and plan entitlements control what this user can change.

SCREENS

39. Task reports

/tasks-timesheets/reports · 1 screenshot

PURPOSE

Task reports screen for Seyora One — scoped by company and branch where applicable.

USER FLOW

- 1. User opens ****/tasks-timesheets/reports**** from the sidebar.
- 2. Page loads data for the selected company/branch scope.
- 3. User performs the primary workflow on this screen.
- 4. Changes persist via the cloud API and refresh the list or detail view.

FEATURES

- Tabs / section rails switch in-page views when a page has more than one.
- Drawers and dialogs handle detail, create, edit, and delete flows.
- Role and plan entitlements control what this user can change.

SCREENS

40. Expenses

/hrms/expenses · 3 screenshots

PURPOSE

Expenses screen for Seyora One — scoped by company and branch where applicable.

USER FLOW

- 1. User opens `**/hrms/expenses**` from the sidebar.
- 2. Page loads data for the selected company/branch scope.
- 3. User performs the primary workflow on this screen.
- 4. Changes persist via the cloud API and refresh the list or detail view.

FEATURES

- Tabs / section rails switch in-page views when a page has more than one.
- Drawers and dialogs handle detail, create, edit, and delete flows.
- Role and plan entitlements control what this user can change.

46. Exit

/hr/exit · 1 screenshot

PURPOSE

Exit screen for Seyora One — scoped by company and branch where applicable.

USER FLOW

1. User opens ****/hr/exit**** from the sidebar.
2. Page loads data for the selected company/branch scope.
3. User performs the primary workflow on this screen.
4. Changes persist via the cloud API and refresh the list or detail view.

FEATURES

- Tabs / section rails switch in-page views when a page has more than one.
- Drawers and dialogs handle detail, create, edit, and delete flows.
- Role and plan entitlements control what this user can change.

SCREENS

47. Clearance

/hr/clearance · 1 screenshot

PURPOSE

Clearance screen for Seyora One — scoped by company and branch where applicable.

USER FLOW

1. User opens ****/hr/clearance**** from the sidebar.
2. Page loads data for the selected company/branch scope.
3. User performs the primary workflow on this screen.
4. Changes persist via the cloud API and refresh the list or detail view.

FEATURES

- Tabs / section rails switch in-page views when a page has more than one.
- Drawers and dialogs handle detail, create, edit, and delete flows.
- Role and plan entitlements control what this user can change.
